

ABOUT JOURNAL

International Journal of Humanities and Educational Research is an international scientific journal published by Rimar Academy in Istanbul, Turkey. Professionally, **IJHER** publishes research, studies and revisions written in English, Arabic, and Turkish which are judged by a committee of arbitrators and experts to be handed over to the editorial board to determine its suitability for publication.

The board of referees and editors is a collective body of international and Turkish expert scholars who consider the liability of research projects to be published according to the parameters and regulations of **IJHER**. Many of updated topics and focused aims are carefully considered within the academic dimensions of the journal. This will allow researchers to function their interest to search deep into most concerned topics of nowadays. Being open access and online available, it is able to offer excellent visibility and a fast processing time from submission to publication. **IJHER** aims to provide an inter-disciplinary forum to showcase state-of-the-art research challenges on human and social.

VISION

IJHER views the most interesting topics of close relatedness to the new topics that point to updated results and motivations. Moreover, the Journal searches for most distinguished subject matters that provide zealous interest by scholars and high study students to write about and tackle. It also looks forward to establishing a bridge of scientific, human and modern communication among researchers from all over the world firstly, and among societies secondly, to strengthen human, scientific, research-based, dialogue, respect and other ways away from dissonance, exclusion, and nervousness of all kinds.

MISSION

The Journal seeks to focus on how to connect human societies with each other on the basis of scientific research and common interests, and the basic humanitarian principles that are aimed at upholding man and preserving his dignity. It leads scholars to develop their points of view about the new curriculums for under and post graduate levels. Beside, it helps to focus more views on how humanitarian issues find solutions in education and its progress. It seeks to develop scientific research in this field, and to provide opportunities for researchers around the world to contribute to solving human problems, whatever the need to reach High-class human communities away from war, destruction, tyranny, enslavement, poverty, hunger, ignorance, spiritual, ethnic, and moral....
